

SWISH LAMINATE AQUA: TECHNICAL SPECIFICATIONS

Oak Vermont

Blackbutt - Aqua

• Type	Laminate Floating Floor
• EIR	Yes
• Pattern	Single Strip
• Dimension	2200 x 196 x 12.3mm
• Anti- Fungal	Yes
• Warranty	25 Years Domestic
• Surface Finish	Matt Finish
• Edging	4 Side Bevelled Edge
• Profile	Valinge 5G lock
• Installation Method	Floating
• Pack Size	2.16m ²
• Pack weight	22 kg
• Boards per pack	5
• VOC Rating	<0.05ppm
• Accessories	Yes
• Construction	Wear layer; HDF; Balance back layer
• Slip Resistance Classification	P2 AS4586-2013
• Australian Fire Reaction Floor	AS/ISO 9239-1:2003 CHF 7.1KW/m ²

Oak Colonial

STAY.SAFE

- Antibacterial
- Antifungal

Tested as per
ISO 22196.

Warranty Domestic:
25 Year Wear and Life time Structure

Swish Aqua Flooring:

TECHNICAL SPECIFICATIONS

Applications: For use in interior areas of private homes and commercial establishments
Warranty: 25 years for private use in accordance with the Swish Aqua warranty terms

CLEANING INSTRUCTIONS:

As a general guide we recommend: Daily/weekly: Vacuum, sweep or use an antistatic mop to remove dust and dirt. How often you clean the floor is dependent on the amount of traffic and the amount of dirt carried onto the floor.

Weekly/monthly: Wash the floor using a damp mop and a recommended wood cleaner. Removing Dust and Dirt: Swish laminate Prefinished Floors are very well protected by the Aluminium Oxide clear coat, but to prevent grit, dirt and sand from being ground into the floor and scratching and abrading the finish, as with any floor, keep the floor clean. Routine vacuuming and frequent sweeping can limit the amount of dirt or grit getting onto the floor. Dust can cause damage if it is allowed to build up over time by inflicting minute scratches.

Swish laminate Aqua range comes with 48 hours water protection warranty applies for installation in wet areas including bathrooms, toilets, kitchens and entrance areas if it is installed and maintained according to Swish Aqua laminate Installation and maintenance instructions. Please be noted that this 48 hours water resistance guarantee only applies to normal household spills. It does not cover water damage caused by natural disasters, standing water (e.g. from appliance failures, like washing machine leaking), hydrostatic pressure, pet urine or other corrosive liquids or outside water (from snow, rain or water which enters through an open window or door, etc.) When using a vacuum cleaner, check to ensure rollers cannot scratch wooden surface. Washing the floor: While an Aqua laminate floor deals better with water, this does not mean it can be allowed to get soaking wet. Periodic cleaning with a damp mop using a good quality nonabrasive wood floor cleaner (formulated for UV prefinished floors – see our Recommended Products section) to remove all residues. Floors must not be cleaned using steam mops.

IMPORTANT: Do not use oil based, ammoniated, abrasive paste, wax, silicones or solvent based products as they will harm the long term performance of the UV finish. Spillages: Spillages should be wiped up immediately with a dry cloth or paper towel. Ink, blood and wine are more likely to bed in if they are allowed to dry. For sticky substances, moisten the cloth slightly. Never use any of the following products on your floor: ammonia-based cleaners, mineral spirits, acrylic finishes, wax-based products, detergents, bleach, polishes, oil soap, abrasive cleaning soaps, or acidic materials such as vinegar. Never apply wax treatments to your floor. Do not use rugs with solid rubber or vinyl backings. Rugs must be made of a breathable material to prevent moisture entrapment. We recommend using a breathable rug underlay. Mesh or grid patterns are best.

IMPORTANT: Do not use oil based, ammoniated, abrasive paste, wax, silicones or solvent based products as they will harm the long term performance of the Surface finish. Sliding or dragging furniture or other objects across the floor can scratch your floor. Use load bearing castors to prevent indentation from heavy furniture or appliances.

*Swish Aqua floors must be installed by a competent approved installer who will have the necessary skills and take individual site circumstance into account. Swish Aqua Floors warranty will only apply to floors which have been installed according to the Swish laminate installation instructions available in each box of Swish laminate flooring.
